WORK -EXPERIENCE

I am currently working as an Application Developer with Addnode India Pvt Ltd in India, a subsidiary of Technia AB based out of Sweden. Technia AB is a leading PLM (Product Lifecycle Management) solutions provider and I am part of the product R & D team focusing mostly on improving performance optimization and user experience and implementation of new requirements of Technia products. I have worked with business users to identify their requirements and have done required configuration and customization.

PROJECTS

FILE-MANAGER

This feature provides user with a streamlined way of working with Microsoft office documents, or any other document that can be opened for edit with a locally installed application.

Responsibilities:
